

## I GO TRAVEL

---

Authentic | Slow | Living

---

*I GO TRAVEL agrees with the thought of the great soprano Leontyne Price, recognizing that true luxury is taking the time to do what you really want, desire, yearn to do. According to us, the journey is not just getting away from the usual routine, to devote himself to something different. According to us, the journey is the time during which a person invests in the most important asset: his time. Reading a book, enjoying the delights of the area, visiting a museum, going shopping or immerse yourself in the local culture and learning the ways and customs of the locals. In other words, living the trip, enjoying every single moment, appreciating the value of authenticity and the luxury of being able to have a good time in a unique, personal, exciting way **"AUTHENTIC SLOW LIVING"** as we like to say. Everybody loves traveling, learning, exploring, testing something different. And we all have the right to imagine the journey as we like, ad hoc, according to our tastes and our interests. And to make it happen we'll think about it". Roberta - Manuel - Alessandro*

## WHO WE ARE

---

### Italy | Travel | Specialist

---

**I GO TRAVEL** is a family-run tour operator based in Italy. We value authentic slow living; we believe travel isn't merely about seeing a place, but rather about exploring, learning, and living another life for the duration of a traveler's journey. We serve a B2B market as a local partner for travel agencies abroad hoping to offer their FITs and small groups an unforgettable Italy vacation. Whether your clients are looking to taste their way through Italy's gastronomical history, learn authentic cooking techniques honed by centuries of tradition, or indulge in a wine tasting in a generations-old cellar, I Go Travel experiences are highly customizable to their tastes and needs. But our priority is always to take travelers off the beaten path, far from the checklists and Instagram photo opps of Rome and Venice. In each of our tour packages, we will travel the forgotten corners, discover local favorites, and see the authentic Italian way of life—whether we are in the city, in the country, or in the middle of a multi-day trek through the Aosta Valley. Our travel experiences recall the nature of authenticity, the art of slow living, and the beauty of tradition in one of the most awe-inspiring and historic corners of the world.

**ROBERTA:** I have always loved reading, imagining I was the depicted character, living their lives, adventuring into their journeys. Today I help create those journeys that are able to move and amaze you like the pages of a fascinating tale.

**MANUEL:** Since I was a child I have discovered places and traditions through the keyboards on my pianoforte. Today those same melodies guide me in the composition of experiences mixing art, culture and flavors.

**ALESSANDRO:** as a young child I would enter travel agent's offices with the hope that one day I could be part of the dream of the journeys offered in their catalogues. As an adult I have decided to create those dreams in flavor of people like me who have always desired to live them.
